currently need additional funds, it would be best to write a Letter of Support for this project. Stephanie Elliott, Grants Administrator will write the letter and we can add this as an agenda item in our next meeting.

9. For Possible Action – Discussion and deliberation regarding the budget. Tom Bolling will provide a status on how the budget has been spent and what we can expect moving forward.

Tom Bolling was not present. We will receive an update on the budget in our next meeting. Jimmy Martinez stated that we purchased the pallet of concrete, which costs about a couple hundred dollars.

10. For Possible Action – Discussion and deliberation regarding the perimeter fence and sound barrier.

Jimmy Martinez confirmed that we are constructing the perimeter fence using drill pipe and 3-strand wire, and we are waiting on pricing for this.

Brad Harris asked for clarification on why we have not yet purchased materials. Jimmy Lewis explained the order of operational activities that must occur to get the perimeter fencing in place.

Jimmy Lewis stated that moving dirt and adding a fence can get in the way of building the sound barrier. So far, we have completed the survey, perimeter trail, and have examined the dirt. Our next step in this process is building the sound barrier, but we are blocked by the fact the dust permit has not been approved by the State. Additionally, after speaking with a few experts in pushing dirt, it doesn't make sense to move the dirt until we have a substantial amount of water available. Deb Strickland stated that ideally, we would not be moving dirt in the summer.

11. For Possible Action – Discussion and deliberation regarding Advisory Board updates on their respective areas.

We discussed the Big Dunes project in Amargosa Valley. Jimmy Lewis recommended that we support this project by writing a letter of support. He explained that the BLM needs assistance from the County in getting a better surface road. They would address the silt beds and haul material out of the area. There is cooperation between BLM and Nye County. The funds from this would come from a separate grant from the State OHV Commission specifically for this activity.

12. For Possible Action – Discussion and deliberation to set the date and time for the next meeting.

Erica Muxlow motioned to set the next meeting to July 7, 2022, Brad Harris second.

13. General Public Comment (second).

Bob Adams represents the Conservation Commission on the State OHV Committee. Bob Adams stated that the OHV Commission grant application is due July 19th. We may need to review the grant to ensure that we have requested enough funds because there has been inflation and other factors that have impacted prices since the original application in 2017.

The 2nd grant cycle is in November, and it is now a good time to get started on this as well.

14. Announcements (second).

There were no announcements.
